

Shirachchedan through Kapaalshakti

The secret to a stress-free academic life.

This talk

*In this interactive and eventful seminar, **Shri Shri Shri Shri Shri Shri Shri Ugranarasimha Gramasimha Babaji** will unravel the deep mysteries regarding the origins of the universe, and how to use this knowledge to live a prosperous life.*

UG Babaji will share some practical tools including a trīśūl, a gādā, etc., and will instruct you in the successful use of these instruments towards attaining peace in life. He will also guide us through a powerful trance, after which you will not be certain whether your waking life is still your own, or only an illusion cast by the powerful mystic.

About the speaker

***Shri Shri Shri Shri Shri Shri Shri Ugranarasimha Gramasimha Babaji** is a renowned ascetic and mystic who resides in the murky marshes of the banks of the Yamuna. His mission was to create a world where the gravitational pull of the planet overcomes the centrifugal force generated by its rotation. His holiness has since completed this mission. You are welcome. UG Babaji now spends his days trying to make sense of the world he has built,*

and helps others make sense of the world as well.

Ugranarasimha Babaji is also well-versed in the use of the higher mysteries in combat, and is one of the only remaining practitioners of Kaalsarp Aamantran. In this fearsome method, UG Babaji can summon a fierce, infinite, demonic serpent to devour all his enemies. Babaji also possesses tremendous Kapaalshakti, or black powers, which enable him to decapitate any of his enemies by whim.

Babaji was educated at the prestigious Muralidharakrishna Institute of Tantrashastra (MIT), and is also an alumnus of the historically significant Aghoritantra Gurukula. Babaji is the founder and director of the Kaalsarp Aamantran Abhyas Adhyayan aur Anusandhaan Yogalaya (KAAAAY) at IISc.

Time and venue

This talk will occur on the day of the full moon, when the stars flicker out like dying flames, and the crickets and wolves sing their songs of sorrow as the midnight moon turns the colour of blood.

This talk will be held at the main lecture hall at the Kaalsarp Aamantran Abhyas Adhyayan aur Anusandhan Yogalaya.
